

Alloy C-276 1-Piece 40 Series 3-Way Ball Valve, 0.90 Cv, 1/4 in. Swagelok Tube Fitting

On-off service is provided by the 40 series one-piece instrumentation ball valve, which features a three-way switching flow pattern.

Part #: HC-43XS4

Specifications	
Body Material	Alloy C-276
Cleaning Process	Standard Cleaning and Packaging (SC-10)
Connection 1 Size	1/4 in.
Connection 1 Type	Swagelok® Tube Fitting
Connection 2 Size	1/4 in.
Connection 2 Type	Swagelok® Tube Fitting
Connection 3 Size	1/4 in.
Connection 3 Type	Swagelok® Tube Fitting
CV Maximum	0.9
Flow Path	Standard
Flow Pattern	3-Way, Switching
Handle Color	Black
Handle Style	Oval
Low Emissions Certified	Yes
Packing Material	PTFE

Contact

If you have questions about this product, please contact your local authorized sales and service center. They can also tell you about supporting services to help you get the most out of your investment.

The complete catalog contents must be reviewed to ensure that the system designer and user make a safe product selection. When selecting products, the total system design must be considered to ensure safe, trouble-free performance. Function, material compatibility, adequate ratings, proper installation, operation, and maintenance are the responsibilities of the system designer and user.

Do not mix/interchange Swagelok products or components not governed by industrial design standards, including Swagelok tube fitting end connections, with those of other manufacturers.

3-Way Switching

The original 40 series and the 40G series valves provide various actuator, flow path, and handle options. They are designed for ease of packing adjustment while remaining inline.
