

# Stainless Steel Pipe Fitting, Hex Reducing Nipple, 1/4 in. Male NPT x 1/8 in. Male NPT

Part #: SS-4-HRN-2

## Specifications

|                   |                                         |
|-------------------|-----------------------------------------|
| Body Material     | 316 Stainless Steel                     |
| Cleaning Process  | Standard Cleaning and Packaging (SC-10) |
| Connection 1 Size | 1/4 in.                                 |
| Connection 1 Type | Male NPT                                |
| Connection 2 Size | 1/8 in.                                 |
| Connection 2 Type | Male NPT                                |
| Flow Restrictor   | No                                      |
| eClass (4.1)      | 37021016                                |
| eClass (5.1.4)    | 37020514                                |
| eClass (6.0)      | 37020514                                |
| eClass (6.1)      | 37020514                                |
| eClass (10.1)     | 37020514                                |

## Contact

If you have questions about this product, please contact your local authorized sales and service center. They can also tell you about supporting services to help you get the most out of your investment.

*The complete catalog contents must be reviewed to ensure that the system designer and user make a safe product selection.*

*When selecting products, the total system design must be considered to ensure safe, trouble-free performance. Function, material compatibility, adequate ratings, proper installation, operation, and maintenance are the responsibilities of the system designer and user.*

## Straights

Straight reducer fitting connects different pipe sizes in a linear run—ideal for maintaining flow efficiency in demanding piping systems.
