

Stainless Steel In-Line Particulate Filter, 1/4 in. Swagelok Tube Fitting, 0.5 Micron Pore Size

Part #: SS-4F-05

| Specifications | |
|------------------------------|---|
| Body Material | 316 Stainless Steel |
| Cleaning Process | Standard Cleaning and Packaging (SC-10) |
| Connection 1 Size | 1/4 in. |
| Connection 1 Type | Swagelok® Tube Fitting |
| Connection 2 Size | 1/4 in. |
| Connection 2 Type | Swagelok® Tube Fitting |
| Feature | 0.5 Micron Element Pore Size |
| Filter Element Size | 0.5 Micron |
| Maximum Temperature, °F (°C) | 900 (482) |
| Minimum Temperature, °F (°C) | -40 (-40) |
| eClass (4.1) | 36101905 |
| eClass (5.1.4) | 36102090 |
| eClass (6.0) | 36102090 |
| eClass (6.1) | 36102090 |
| UNSPSC (4.03) | 40161500 |
| UNSPSC (10.0) | 40161516 |
| UNSPSC (11.0501) | 40161516 |
| UNSPSC (13.0601) | 40161516 |
| UNSPSC (15.1) | 40161516 |
| UNSPSC (17.1001) | 23271713 |

Inline Filters

Remove particulate contaminants in gas or liquid applications where space is limited (inline) or maintained while still in the system (tee-type) with Swagelok filters.

Contact

If you have questions about this product, please contact your local authorized sales and service center. They can also tell you about supporting services to help you get the most out of your investment.

The complete catalog contents must be reviewed to ensure that the system designer and user make a safe product selection.

When selecting products, the total system design must be considered to ensure safe, trouble-free performance. Function, material compatibility, adequate ratings, proper installation, operation, and maintenance are the responsibilities of the system designer and user.

Do not mix/interchange Swagelok products or components not governed by industrial design standards, including Swagelok tube fitting end connections, with those of other manufacturers.
